

GPRA RESOURCES: 6-MONTH FOLLOW-UP

State Opioid Response (SOR) - Michigan

The federal minimum completion rate for 6-Month Follow-Up (6MFU) GPRA is 80%. To obtain this rate, there are a number of resources available to you!

How do I know when a 6-Month Follow-Up GPRA is due?

The **GPRA Tracker with 6MFU Calculator**: tinyurl.com/6MFUCalculator

By entering a client's intake date, the Excel file calculates the 6MFU window.

The clinician and regional SOR Coordinator will also receive an email reminder from GPRA@wayne.edu. However, clinicians should also maintain their own documentation.

Try, try, and try again to contact clients.

Persistence leads to compliance!

Resources for Contacting Clients & Improving the 6MFU Rate

When clients complete an Intake GPRA...

- 1) Provide an **Interview Reminder Card**:
